

Greetings, TFS families,

It is hard to believe we are looking toward the 2022-23 academic year. With that comes all the annual requirements within the Magnus Health System to ensure the health and safety of each student.

For anyone needing assistance navigating Magnus, there is an easy-to-follow tutorial on the school's YouTube channel:

In addition, here is the direct link to the Parent Portal in Magnus:

The window for completing/uploading annual requirements is April 1-July 1. Students will not be admitted to the TFS campus for the 2022-23 school year until all required documents are completed/uploaded. Failure to comply by the July 1 deadline will impact your child's ability to be active on campus and participate in school activities and trips.

A few reminders:

1. The Annual Physical Form is four pages. All four pages must be completed. The History portion must be signed by both the student and a parent/guardian. Please take a copy of this form to your primary care physician [PCP] as we cannot accept forms from any other source.
2. If you answer 'yes' in the Conditional Questions regarding allergies, this will trigger the need to complete ALL the Allergy Forms with your PCP.
3. The State of Georgia requires children receive the MCV4 booster prior to entering 11th grade. A copy of the immunization requirements for the State of Georgia is attached for reference.

The following forms are all completed electronically:

1. Conditional Questions
2. Vital Health Record
3. Consent for Medical Treatment
4. Over the Counter Medications
5. GHSA Concussion Awareness Form
6. GHSA Cardiac Arrest Form
7. Assumption of Risk for Athletes Form
8. Please upload copies of both the front and back of any insurance cards.

If anyone encounters difficulty completing/uploading forms after watching the tutorial, please reach out to:
